Demoxis

AI civic infrastructure for structured dialogue and better decisions

[See full page](#)

[People, funding & more](#)

Meet [Malik Allawal](#) that works here

Demoxis is building the operating system for modern democracy.

Across the UK and other democracies, citizens feel unheard while elected leaders are overwhelmed by fragmented, unstructured public feedback spread across emails, social media, consultations, and casework systems. The result is slow responses, missed signals, and declining trust.

Demoxis solves this by using AI to turn raw public input into structured, decision-ready intelligence — connecting citizens directly with the right political authority, from local councillors to Members of Parliament.

Citizens raise issues through simpl...

cogniosynthesisportal ltd

The world's first epistemic intelligence platform

[See full page](#)

[People, funding & more](#)

Cogniosynthesis Portal Ltd builds epistemic intelligence tools for organisations where meaning matters. Our flagship product, CognioAPI, applies a 7-Dimension Framework to policies, reports, and governance documents — extracting span-cited claims, scoring cultural and ethical risk, detecting contradictions, and generating corrective rewrites. Unlike sentiment analysis or fact-checking, we audit the structure of meaning itself: what a document assumes, excludes, and makes invisible. CognioNews, our public-facing news platform, processes 1,600+ stories through this framework daily — serving as b...
